

## How does it Work?

**11:56:01 pm**  
Your alarm system is triggered by a burglary, fire or other emergency situation.

**11:56:06 pm**  
The digital transmitter is activated and sends a signal to cdi's main computer.

**11:57:00 pm**  
The signal is received. The operator begins the appropriate response.

**11:57:30 pm**  
The call for help is on the air and police, fire or emergency medical services are on their way!

*Nicholas Barrack  
President*

*"Our goal is to be the Midwest's finest monitoring organization. We pride ourselves on our ability to satisfy the special needs of each individual dealer and customer."*

## Who are We?

*Central Dispatch, Inc.* was established in 1985 to satisfy the needs of alarm dealers frustrated with the service and attitude of the bigger, national alarm monitoring companies. We have designed our operation to be **friendly and flexible**. We take pride in our ability to meet the needs of each unique residence or business.

Our management team has a combined total of **over 70 years experience** in the alarm industry. Our central station is UL Listed for commercial fire. This ensures you that our building, equipment and procedures meet the most rigorous standards in the industry.

Our **courteous and professional** operators will treat you as an individual. Your call will always be answered by a **live** person, **not a recording**.

## When do We Work?

Central Dispatch watches for signals from your alarm system **24 hours a day - every day**. We take the worry out of finding someone to watch your property.

The entire process—from the time your equipment is activated, transmits the signal to our receiver, our operator acknowledges the signal and makes the appropriate calls—is usually **completed within two minutes**.

## Where are We?

We are the alarm monitoring service that feels **“close to home”** yet can provide the latest innovations and technology in the industry. We are located in Central Missouri, outside the hustle and bustle of the large metropolitan areas. We welcome pre-arranged tours of our secure facility.

Wherever you are, **we will be here** to protect your home or business.

## What do We Do?

We can **monitor** just about any condition. Just a few of the possibilities include:

- Fire, Burglary, Hold-up, Panic
- Medical Emergency
- Sprinkler Supervision
- Equipment Failure
- Power Outage
- High / Low Water Level
- High / Low Temperature Alert
- Alarm Supervisory Conditions
- Arm and Disarm Times with Users
- Fail to arm or disarm

We provide the **latest innovations and technology** in the industry, including the ability to receive cellular and IP signal reporting, video monitoring services; on-demand and scheduled video tours.

## Testimonials

“I am a senior living alone in an apartment in a retirement high-rise. One day I became ill and activated my panic button. The police told me later that due to the speed that my alarm was dispatched, my life was saved!” - **Jefferson City**

“It’s the craziest thing, but only 45 minutes after the alarm system in my business was turned on for the very first time, a burglar alarm sounded. The dispatcher called the police and the burglar was caught!” - **Marshall**

I purchased a burglar alarm for my business. One night an alarm sounded and the dispatcher called the police, who found all the doors and windows secure. Despite this report, an alarm kept sounding. The dispatcher was concerned about why the alarm kept going off. The police were sent over again and upon closer inspection found a fire inside the building. Thanks to the persistence of that dispatcher, my business sustained only \$100,000 in damages instead of the total loss it could have been.” - **Rolla**
